

Susana Stoica, Ph.D.

Engineer, Inventor, Author, Speaker

will show your audience how they can heal from brain injury and reclaim their lives!

Have you suffered a recent brain injury or have health problems that do not respond to traditional medical treatments? Or maybe you are experiencing sensitivity to light, smell, or noise you did not have before? Or perhaps you are a healthcare provider or caregiver for a person with brain injury?

Brain injuries can be recent or may be due to reactivated old traumas that show up after a sudden emotional or physical shock, or an extended period of stress.

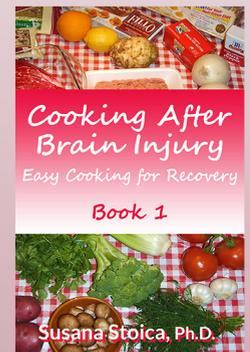

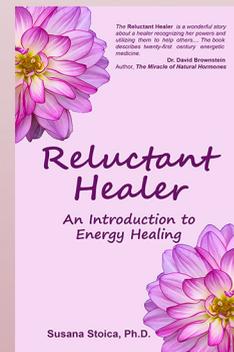

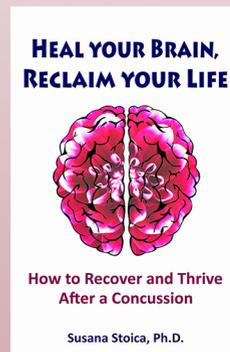

After a double concussion and using her experience in helping others to get well after brain trauma, Susana developed her own unique recovery program. Having a special ability to sense and balance the human energy fields, Susana is able to correct the stresses induced by an injury allowing the normal cell replication to occur once again.

Susana Stoica has a Ph.D. in Computer Engineering with a thesis in designing computers with brain cell-like circuits and was born with the ability to work with energy field irregularities.

Story ideas:

- * Can doctors make a more accurate brain injury diagnosis? 3 preparedness steps every doctor should know!
- * What is our "energy field" and how does it affect our physical, mental and emotional well-being?
- * Immediate steps you must take following brain injury to limit the risk of further damage.
- * What is a concussion and how can you know if you have one? 5 indicators you need to be aware of.
- * What is delayed brain trauma, and how can you know if your physical and emotional issues are caused by it?
- * Maintain mental acuity into your old age! 5 important tools to insure good mental health.
- * The emotional impact of brain injuries. Often this is ignored or overlooked. What support can friends and families offer?
- *Cooking with brain injuries can be challenging! 5 ways Susana's cookbook for brain injured people is changing lives!

Susana Stoica's books are available from Amazon.com and Barnes and Noble. You can also find them through her web site: <http://HealingBrainInjury.com/published>.

My son suffered a blow to the head. Knowing Susana Stoica's intuitive diagnostic abilities, I asked her to see my son. She recommended immediate hospitalization as she was perceiving slow intracranial bleeding. The surgeon told us if we would have waited even one more day, my son would not be alive today.

Dr. Paul Parente, DO, Michigan

I can't say enough about Susana's caring and her gift for healing!

**Kim Dunn Stanley,
Mother of professional hockey player**

My 10 year old granddaughter suffered a concussion. She was diagnosed and told to rest by her pediatrician. However her headaches kept coming back, her vision was off, found it hard to concentrate, and could not sleep.... something else needed to be done. It was then that I contacted Dr. Stoica. It is wonderful to have the headaches and other side effects of her brain injury gone.

Tina Day, Occupational Therapist
